## New Product Release - August 2008

We are pleased to announce availability of piston skirts for Cummins® M-11 engines. These skirts are also available in an inframe engine kit part number MCBM11E-S and includes new liners and liner seals, piston skirts, pins and retainers, ring sets, a head gasket set and an oil pan gasket. Please refer to W-FOR-75-0147 (included with skirt) for correct piston skirt orientation.

M-4955372 crankshaft seal kit for Cummins® C-Series construction applications requiring a dual lip seal is now available. This dual lip seal includes the installer for installation. Call the parts professionals at Interstate McBee for correct applications.

M-1607992 and M-1607994 pistons for Caterpillar® G3408 and G3412 engine applications are now available. The M-1607992 piston utilizes an 11.4:1 compression ratio and is found in G3408 and G3412 LE (Low Emission) applications. The M-1607994 piston has an 8.5:1 compression ratio. The M-1607992, M-1607994 along with the M-4P8996 pistons for G3400 application are gallery cooled designed pistons. We now have the complete coverage for gallery cooled type pistons for these popular engine applications.

All original names, numbers, symbols and descriptions are used for reference purposes only and do not imply that any part listed is the product of this manufacturer.

## New Product Release - August 2008

M-7C2238 nozzle assemblies are now available for Caterpillar® MUI 3500 engine applications. The M-7C2238 nozzle assembly was originally used with the 7C9577 injector.

We now have M-5I7713 nozzle tip assemblies for Caterpillar 3066 engine applications. The 3066 engine can be found in popular hydraulic excavator applications such as machine models 318, 319, 320, 321. The M-5I7713 can be found in M-5I7706 nozzle groups. These nozzle tip assemblies compliment our growing line of parts for this popular engine. Contact the parts professionals at Interstate McBee for exact applications.

Interstate McBee now stocks a full line of complete turbocharger and cartridges for popular Caterpillar® engine applications. These new turbocharger and cartridges add additional coverage to our growing list of turbochargers for Detroit Diesel® (Series 60®) and Cummins® applications. These cartridges and turbochargers include the mounting gaskets. Contact the parts professionals at Interstate McBee for exact applications. Some of the new Caterpillar part numbers are listed below.
