

INTERSTATE-McBEE

Now available from Interstate McBee:

Detroit Diesel Series 50® and 60® Cylinder Liners

We are pleased to announce the availability of our Patented Cylinder Liners for TLC (Top Liner Cooling) engine applications. The Interstate McBee liner has unique cooling grooves that can help to dissipate additional heat allowing the piston ring pack to run cooler. These liners are produced from a hardened alloy cast iron material for additional wear resistance and long engine life. The liner flange is roll burnished for superior flange strength. Because of the unique cooling groove design, orientation in the cylinder block is critical. Please refer to Interstate McBee bulletin M-INT-75-0342, included with the liner, for assembly instructions. Contact Interstate McBee for exact applications and additional details.

- A-23531249** Liner Kit (Includes liner and seals)
- MCIFS60** Inframe kit, w/o pistons

Keep your engine cool with the newest liners from Interstate-McBee.

Available!

Series 60® patented cylinder liners, the latest innovation in diesel engine replacement parts.

Our liners incorporate unique cooling grooves positioned around the cylinder. This patented design can keep your engine running cooler, longer. You can benefit from reduced wear-and-tear on your engine and less overall maintenance.

Take advantage of 60 years of technical expertise. Contact Interstate-McBee for all your aftermarket replacement part needs at 800-321-4234 or visit us at www.interstate-mcbee.com.

INTERSTATE-McBEE

Now available from Interstate McBee;

Detroit Series 60® Lower Bearing Kits

Interstate McBee now has available three lower bearing replacement kits for the Series 60® engine. These kits contain the rod bearing shells, main bearing shells, thrust washers and the oil piping gaskets.

A-23531604 Lower Bearing Kit - Effective up to serial number 6R184522 for 11.1 liter models and 6R188252 for 12.7 liter models.

A-23531605 Lower Bearing Kit - Effective with serial number 6R184523 to 6R762048 for 11.1 liter models and 6R188253 to 6R762048 for 12.7 liter models with cast iron pistons.

A-23531606 Lower Bearing Kit - Effective with serial number 6R411649 to 6R762048 for 12.7 liter “Premium Truck” models with articulated steel pistons and closed end connecting rods.

Cummins® N14 Gear Cover Installation Kits

Interstate McBee now has available two new gear cover installation kits for the Cummins® N14 engines. These kits contain the gaskets and seals to replace the gear cover assembly and compliment the already popular MCB175 kit used on 855 Cummins engines. If new camshaft support shims will be required also order M-AR1176 shim kit.

MCB215 Gasket Set Gear Cover – This set is used on 91N14 engines with the 1.5” diameter accessory drive shaft.

MCB225 Gasket Set Gear Cover – This set is used on 94N14 engines with the 2” diameter accessory drive shaft.

INTERSTATE-McBEE

Now available from Interstate McBee:

Cummins G8.3 Intake and Exhaust Valves

Intake and Exhaust valves for Cummins G8.3L engine applications are currently available. These valves are engineered from the proper materials to withstand high temperatures of spark ignited applications. The exhaust valves have chrome plated stems for added wear resistance.

M-3802812 Valve Kit, Intake (includes locks)

M-3802813 Valve Kit, Exhaust (includes locks)

Caterpillar 3300 Series Fuel Pump Lifter Assemblies

Lifter assemblies are now available for D3304 and D3306 late model scroll type fuel systems. Contact the Parts Professionals at Interstate McBee for exact applications.

M-4P9832 Lifter Assembly, Fuel Pump

Caterpillar D3500 Series Rotocoils

Intake and Exhaust Rotocoils are now available for D3500 series engines. Rotocoil part number M-1977062 is for the intake side with use with 3/8" valve stems. The M-1977063 Rotocoil is for use on the exhaust side with 1/2" valve stems. Contact the Parts Professionals at Interstate McBee for exact applications.

M-1977062 Rotocoil, Intake

M-1977063 Rotocoil, Exhaust

The following items are also available for D3500 applications-

M-2102542 Valve, Intake

M-1944897 Valve, Exhaust

M-1977006 Valve Stem Seal

M-1944901 Valve Spring, Outer

M-1944902 Valve Spring, Inner

M-2090962 Washer, Spring Seat
