**Serving the diesel and natural gas industry for over 60 years.**

## New Product Release – October 2008

### Now available from Interstate McBee:

M-4024880 Inframe Overhaul Kits for Cummins® N14 engine applications are now available from Interstate McBee. Featuring forged steel crowns that contain extruded bronze bushings for proper load carrying capability over steel backed type bushings found in competitive crowns. The Interstate McBee ring pack contains steel rings for improved conformability and strength. These pistons are available in the inframe kits that contain our edge molded rubber style head gaskets for superior sealing. The Interstate McBee M-4089371 cylinder head gasket set also includes the fuel injector mounting o-rings color coded and made from high temperature materials for the service life you expect. The M-4024880 in-frame kit contains cylinder kits, rod and main bearings, head gasket set and oil pan gasket. Contact Interstate McBee for proper applications.

® Cummins is a registered trade mark of the Cummins Engine Company.

### Now available from Interstate McBee:

M-1872733C2 piston pin bushings are now available for Navistar® DT466E. These bushings are for use in engines with engine serial number  $\geq 1194039$  containing 1841615C91 connecting rods. Contact Interstate McBee for exact applications and availability of Inframe overhaul kits coming soon.
