M-1375541- Pump, Fuel Priming

The new M-1375541 hand priming pump is now available. This pump was originally introduced in high horse power Caterpillar® 3406E engines. The M-1375541 pump is approximately 1.3” longer than the M-1052508 pump. Engine models utilizing the M-1375541 include C10, C12, C13, C15, C16, C18, C30, C32 as well as 3126, 3176, 3196, 3456, 3406E, 3408E, 3412E electronic engines. This pump includes the M-1P0436 mounting gasket. Contact Interstate McBee for exact applications.

M-1678123 – Vibration Damper; 3300 applications

M-1678130 – Vibration Damper; 3408 / 3412 applications

We now have new vibration dampers available for Caterpillar® 3304, 3306, 3408 and 3412 engine applications. These high quality dampers are priced competitively. Other Caterpillar® Engine applications are available, contact Interstate McBee.

Also available-

M-1678133-Vibration Damper for 6.25” Bore engine applications.

M-1678126-Vibration Damper for 3406 engine applications.

M-217323-Vibration Damper NT / N14

M-211915- Vibration Damper 855 / NT

M-8929502-Vibration Damper Series 60®

M-8922491- Vibration Damper 71/92

MCBC10013- Cylinder Head Replacement Set

MCBC10012- Inframe Overhaul Set

MCBC10023- Cylinder Head Replacement Set

MCBC10022- Inframe Overhaul Set

Interstate McBee custom gasket sets are now available to service Caterpillar® C-10 and C-12 engines. The new M-1873306 and M-1873307 cylinder head gaskets are a graphite composite design with a multiple layer of steel core material giving the gasket increased strength. The water holes have edge molded rubber inserts to add additional sealing capabilities to the water holes to help eliminate leakage. Application of these gaskets is critical to engine performance. The M-1873306 gasket has a scalloped edge along the cam side while the M-1873307 has a straight edge along the cam side. These sets contain the seals to install the fuel injectors. Contact Interstate McBee for correct engine applications.

*The new Interstate McBee custom gasket set application guide is now available, contact your Interstate McBee Sales Manager for details for downloading or request a CD.*

M-3802968- Thermostat Kit

The new M-3802968 Thermostat kit is now available. This new kit contains thermostat M-3972071 that utilizes the latest design dual “jiggle” pin with the soft seat feature. A thermostat housing template and the housing seal are included in the kit. This thermostat standardizes the design for the Cummins® 4B, 6B and QSB engine models.

MCB6BEXPK- Expansion Plug Kit

MCB6CEXPCK- Expansion Plug Kit

Expansion plug kits are available for Cummins® B and C series 2- valve engine applications. These kits contain the necessary plugs for the cylinder blocks for these popular applications.
