

INTERSTATE-McBEE

Now available from Interstate McBee:

The main bearing sets listed below are now available and offer complete coverage for the popular L10, M11 and ISM Cummins® engines. The M-4025125 set contains the original design thrust washer configuration consisting of four identical roll-pin style washers. The M-4025120 contains the latest design consisting of two lower washers held in place by a tab on the outer edge of the washer. This tab rides in a groove cut in the side of the main bearing cap. When ordering components for these engines, check to see what thrust design is present as some earlier units have been field updated to the newest design.

M-4025125 Main Bearing Set Std.
M-4025126 Main Bearing Set .25mm
M-4025127 Main Bearing Set .50mm
M-4025128 Main bearing Set .75mm

INTERSTATE-McBEE

Now available from Interstate McBee:

Exclusively from Interstate McBee, connecting rod pin bushing for the Series 60® closed end (trunk style) connecting rods used in 1998 and later engines. The MCB60BSH eliminates the need for connecting rod replacement when the pin end is worn. These bushings can be fitted and machined like a conventional connecting rod bushing. Contact your Interstate McBee sales representative for details.

MCB60BSH Bushing connecting rod S60

We now have the M-1830256C93 thermostat in stock for Navistar® applications. This 190° thermostat kit fits DT466 New Generation Engines up to MY 2004 as well as the DT530 engine and includes the PTFE (Teflon) coated seal ring. Contact Interstate McBee for exact applications.

Newly designed web site-

Interstate-McBee is please to go live with our new look web site. This site has many new features available to our customers along with added flexibility to allow us to change and update quickly. So be sure to add www.Interstate-McBee.com to your favorites! We would like to invite you to visit our new site and take advantage of some of our new features such as “Product Updates”, “Interstate-McBee News”, and more. Of course we have kept many of your favorite features such as “Request A Quote” and “Product Search”. Customers that would like access to File Downloads, Catalog Requests, Customer Satisfaction Survey’s and Request for Quotes will need to re-register even if you were registered on our old site. The re-registration is easy and requires the customer email address and a blank password to get started. You will receive an email response from us once the re-registration is complete. We’re happy to provide you with this improved service and thank you for your support.
