- *Always consult the Parts Professionals at Interstate McBee for exact applications.*

Gasket Sets are now available for Caterpillar® 3066 engine applications. These engines are found in popular vehicular applications including 318B, 318C, 319, 320, 320B, 320C, 321B, 321C hydraulic excavators. Interstate McBee cylinder head gaskets for the 3066 engine utilize the latest multi-layer steel (MLS) design. Many aftermarket suppliers are not using the MLS design head gasket. Be sure you're getting the latest in engine sealing technology by contacting Interstate McBee!

M-1352374	Gasket Set, Multiple Cylinder Head
M-1352372	Gasket Set, Major Overhaul
M-2228331	Gasket, Cylinder Head

- *Engine overhaul kits coming soon for 3066 applications!*

M-7N5244	Bearing Sleeve
----------	----------------

Accessory drive bushings for Caterpillar® 3500 engine applications.

- *Always consult the Parts Professionals at Interstate McBee for exact applications.*

M-7N5244	Bearing Sleeve, 3500

INTERSTATE-McBEE

Now Available from Interstate McBee:

IDS02825 Repair kit, Governor, Single Weight

A new governor repair kit is now available for service of the V-71 / 92 variable speed single weight governor applications. These kits include the parts needed to service these governors.

IDS02825 Repair Kit, Governor, Single Weight

M-3939859 Rod Bearing, Standard

Interstate McBee will begin the transition to the new M-3939859 connecting rod bearing for the Cummins® B-Series engine. The M-3939859 is a direct replacement for the M-3901170 bearing which will continue until existing inventory is exhausted. This represents a direct replacement and both bearings are interchangeable. The Interstate McBee bearing will continue to be a Tri-Metal construction bearing.

Use caution when servicing connecting rod bearings on the Cummins B-Series engines. There is a new M-4893693 connecting rod bearing that is in use on the fracture split manufactured connecting rods. The M-4893693 is used in the lower position in the fracture split rods while the M-3939859 is maintained for the upper position. The new M-4893693 has been ordered and will be available in July.
